Personal Learning Device (PLD) Initiative Parents Briefing

29 May 2021 (Sat)

QUEENSTOWN
SECONDARY SCHOOL

Personal Learning Device (PLD) Initiative

Please post your
questions here.

<https://tinyurl.com/askqtss2021>

Scope of Briefing

PLD Initiative

- Recap of National Digital Literacy Programme (NDLP)
- Teaching & Learning via MS Teams
- Digital Literacy & Cyber wellness Programme
- Home-School Partnership (DMA & Parents' Toolkit)
- Orientation Day & Device Rollout
- Insurance, Warranty and Technical Support

Please post your
questions here.

<https://tinyurl.com/askqtss2021>

Intended Outcomes of a Personalised Learning Environment

The use of the personal learning device (PLD) for teaching and learning aims to:

**Support the
Development of Digital
Literacies**

**Support Self-Directed
and Collaborative
Learning**

**Enhance Teaching and
Learning**

VISION OF NDLP @ QTSS

To provide personalised learning for future-ready Queenstownians who are competent in leveraging digital technology for self-directed and collaborative learning, with the heart and will to lead and serve.

Learning with a PLD @ QTSS

Getting our Queenstownians future-ready

- A **Passionate Learner** - arouse students' curiosity and passion to learn; self-directed learning in a broadened curriculum
- A **Reflective Thinker** - self-assessment in learning (both academic and character domains); engagement with real-world issues
- An **Adaptable Collaborator** - develop students to be an effective communicator, collaborator and connected learner.
- An **Innovative Creator** - ignite students' creativity & stimulate innovation through pursuit of students' interests (e.g. coding, designing) and gain greater literacy in creating digital products
- A **Confident Advocate** - advocates and practices safe and responsible use of technology to rally others to serve the community.

Comprehensive Accidental Damage Protection (Insurance)

*Stylus Pen

TEACHING AND LEARNING (CCE and MATH – Sec 3)

QUEENSTOWN
SECONDARY SCHOOL

QTSS Example:

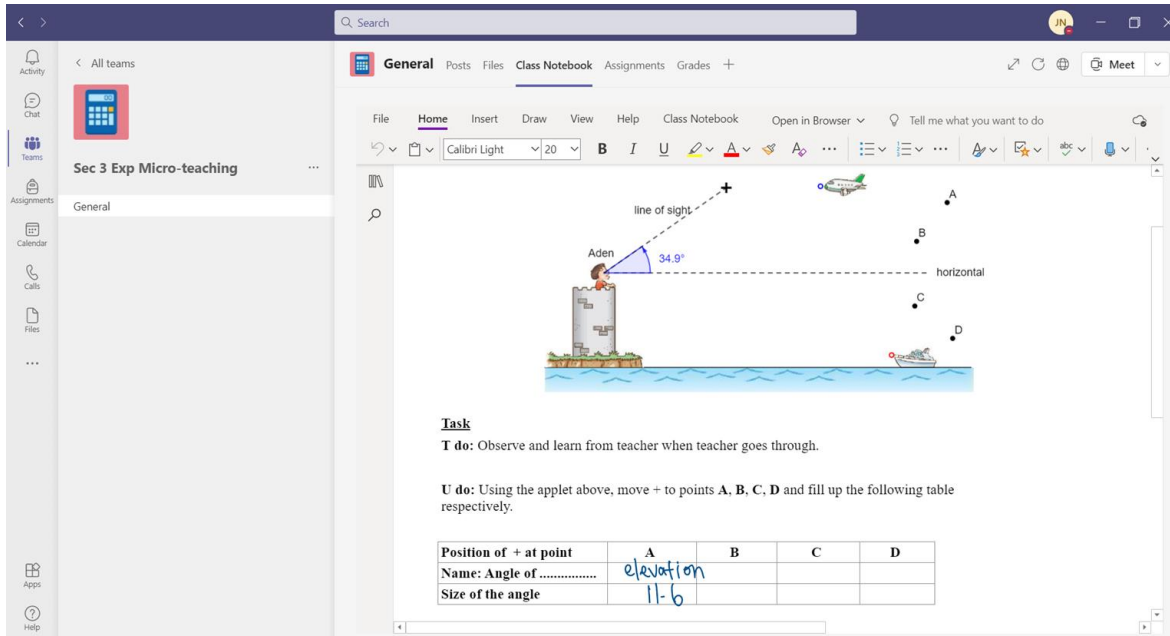

“LIVE” lessons with Teacher, Ms Caroline, using MS Meet

The screenshot shows a Microsoft Meet session titled "CCE Live Check In (24 May 2021)". The interface includes a top bar with a timer (22:21), a toolbar with icons for chat, share, and mute, and a bottom bar with a "Leave" button. The main area is divided into three sections:

- Participants:** A list of participants on the right side, including "Wool Lian Hong Caroline" (Organizer) and "NUR HARVANI MOHAMED H.L." (Organizer). Below the list is a "Share invite" button.
- Attendees:** A list of attendees on the left side, including "ADRIAN JAMES TAGARI", "ANG LU KAI", "DANISH AMRUL BIN DAN TA...", "OSYLER TAN YONG SHAN", "EMDRIYAS AHAMED", "HUYNH VU NGUYEN", and "LOW JUSTIN JOSEY PASCO".
- Shared Screen:** A presentation slide titled "Meeting in 'General'" is displayed. It contains a math problem and its solution. The problem asks to find the angles between 0° and 360° inclusive which satisfy the equation $\sin x \cos(x - 120^\circ) = 0$. The solution shows two cases: $\sin x = 0$ and $\cos(x - 120^\circ) = 0$. The first case leads to $x = 0^\circ, 180^\circ, 360^\circ$. The second case leads to $x = 120^\circ, 300^\circ$. The final answer is $x = 0^\circ, 120^\circ, 180^\circ, 300^\circ, 360^\circ$.

1 Real Life Examples

What are some examples of turning effects in daily lives?

Turning door knob

Turning a spanner

See-Saw

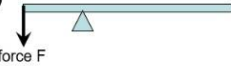

Can you think of some other examples of turning effects? (Insert pictures if possible)

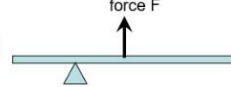

2 Clockwise or Anti-clockwise

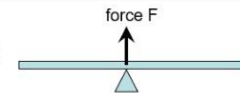

Clockwise or anti-clockwise, depending on the direction of its turning effect.

Determine the direction of the moment in each of the following cases.

(a) 

(b) 

(c) 

Encouraging learner engagement

Sample Lesson – Sec 3Exp Science (Physics)

Using questions to deepen learning

3 Moments Calculation

Definition : The moment of a force is defined as the turning effect of the force about a pivot

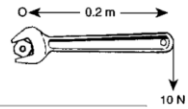

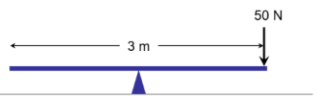

$$\text{Moment of force} = F \times d$$

Where **F** is the force (N)
d is the perpendicular distance from the line of action of the force to the pivot (m)

SI unit : **newton metre (Nm)**

4 Application of Moments Formula

Questions	Solutions
(a) Calculate the moment of the 10N force about the pivot O. 	
(b) A boy pushed downwards on one end of a 3 m uniform rod, which was pivoted at the middle. If he pushed with a force of 50 N , determine the moment he produced on the rod and state the direction of this moment . 	
(c) Since the rod is balanced at the centre, the perpendicular distance between line of action of force and pivot is 1.5 m.

SAMPLE

A: Hi everyone! Welcome to another amazing episode of the Kid's Poetry Club! It's going to be an interesting session today, because we'll be reading a poem about [subject matter/summary of poem].
B: Yes, I can't wait! I think the poem discusses the [subject matter/summary of poem] very well because _____.
A: Shall we move right on to the poem, then?
B: Sure!

A and B: [Reading Aloud]
A: What do you think of this poem, B?
B: Well, I think [Give personal response]
A: I agree with you on that! I think [Give personal response]
B: Yes. But did you ever stop to consider how the poem [Give personal response]
A: That's really insightful, B! For me, the poet's use of literary devices also [give personal response]

Collaborative Learning

Podcast Submission

Q1

RECOMMENDED ⌚ 6 min

① INSTRUCTIONS

You may record an audio clip of up to 10 minutes or upload a file with your answer.

YOUR TASK: You are a member of the in your school. The Club broadcasts weekly podcasts where kids can listen to and read poetry, and share their thoughts about poems with the world.

You and your partner have a podcast to create for The Club! Your task is to read aloud, and analyse any poem that makes you feel sad and/or happy.

Here are the details:

1. Mode: Pairwork, Submission of audio recording via Student Learning Space (SLS)
1. Podcast Duration: 3-5 minutes
2. Required Content:
 - (i) A very short introduction to the Kid's Poetry Club podcast;
 - (ii) Reading Aloud of one chosen poem;
 - (iii) Analysis of the poem with your partner to answer the question:

What different feelings and reactions does this poem evoke in you?

Explain with reference to the poet's use of words and literary devices.

Digital Literacy Programme

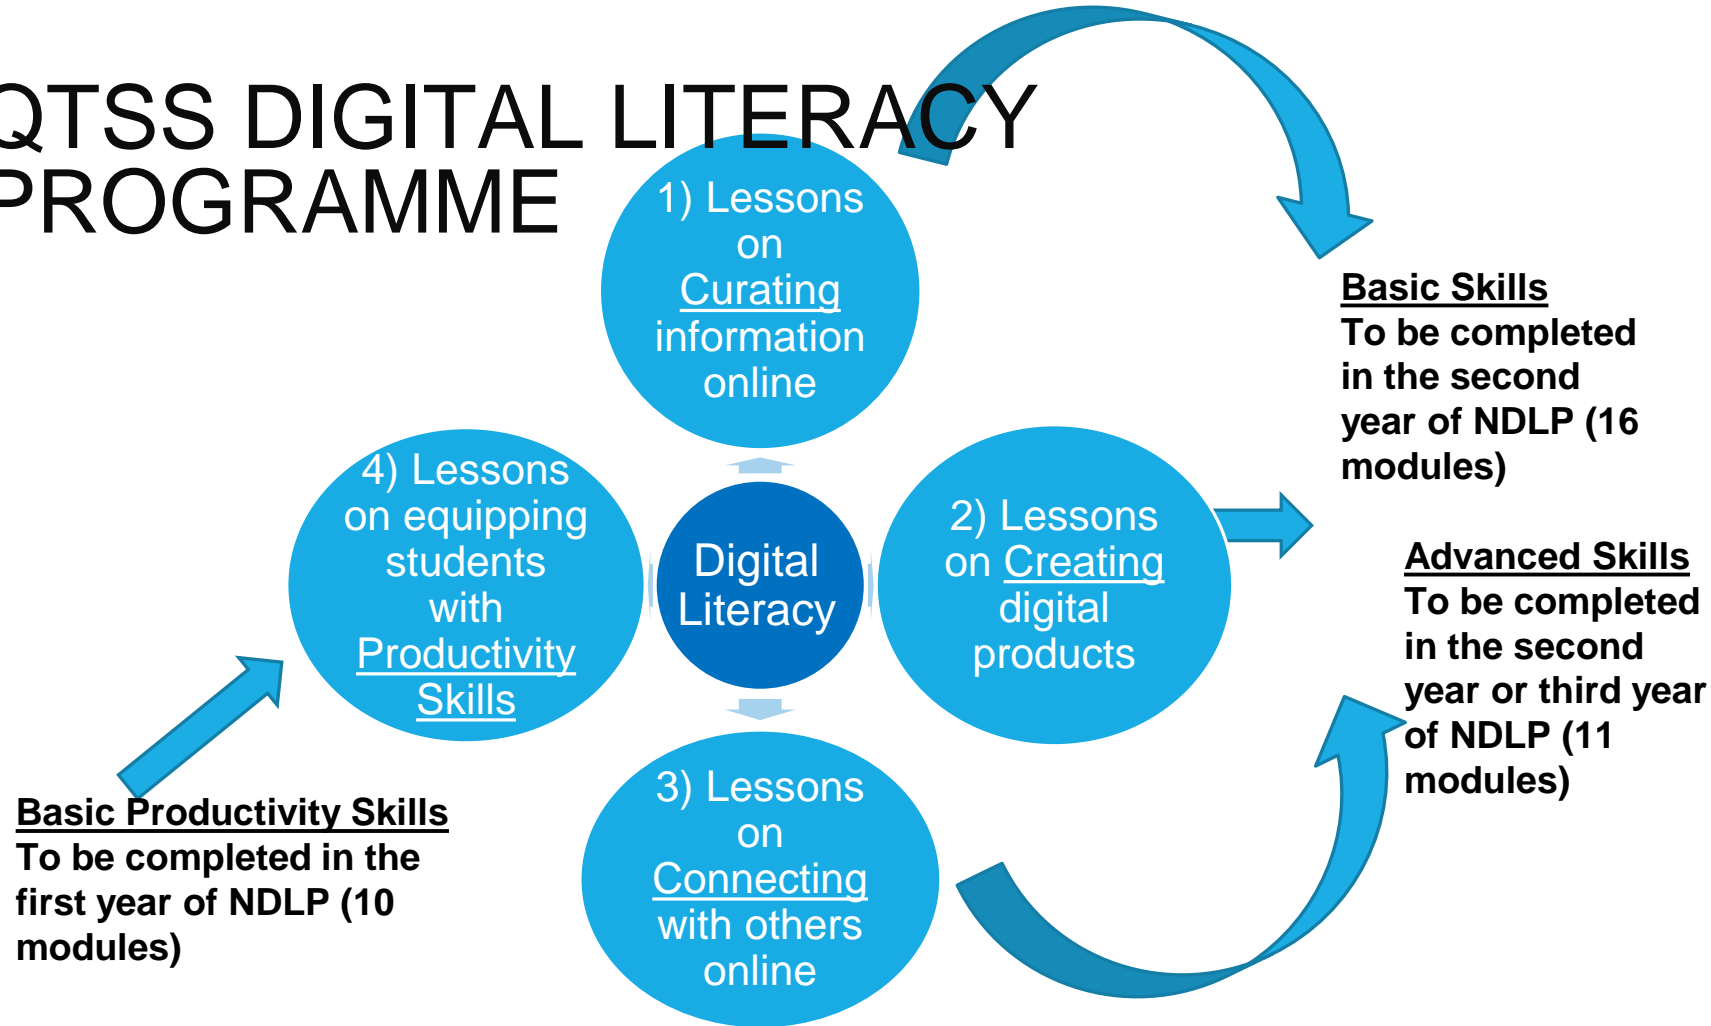

QTSS DIGITAL LITERACY PROGRAMME

To develop in students the dispositions, knowledge and skills to thrive in the digital environment, PDLP Digital Literacy serves to equip students with the following:

1. New Media Literacies (NML) as the competencies to curate, connect and create information in the digital networked environment
2. Productivity Skills to operate devices and software effectively

Possible Challenges in New Learning Environment

Cyber Wellness Concerns Identified by International Studies

Harmful online content

50% of Singaporean teenagers are exposed to cyber threats & 28% of them are exposed to violent content.
(COSI, 2020)

Distraction from learning

72% of teens feel compelled to immediately respond to texts, social posts and notifications.
(Kimball & Cohen, 2019)

Excessive screen-time

Teens who don't sleep enough report higher levels of depressive symptoms than well-rested peers (31% vs 12%).
(Kimball & Cohen, 2019)

QUEENSTOWN
SECONDARY SCHOOL

Home-School Partnership

Supporting Students in the Safe and Conducive Use of the Devices

The school has measures in place to enable a safe and conducive learning environment for students in the use of PLDs for teaching and learning, e.g.

- A. Educating students on Cyber Wellness
- B. Classroom management and routines
- C. Device Management Application (DMA)

We need to partner you in ensuring that your child is well supported both in and outside of school.

A: Cyber-wellness Programme

Objectives:

- Be a **Safe, Respectful** and **Responsible** user of technology and maintain a **positive** online presence
- Be Responsible for **personal well-being** in the cyberspace
- Embrace the affordance of technology while maintaining a balanced lifestyle between offline and online activities

A: Cyber-wellness Programme

Examples of CW engagement

- CW Lessons conducted by teachers
- Assembly Talks
- Morning Reflections
- Just-in-Time Packages based on current affairs
- Peer Support Leaders (e.g. roadshows, students sharing @ class/school level, Youth Week activities)

B: Classroom Management and Routines

Before

ACLAP

A - Attendance & Punctual

CL: Ensure Cleanliness of the Learning Environment

A: Proper Attire

P: Preparedness (HP in the Locker/Materials Ready)

During

SPUR

S: Stay Focused (Know Lesson Objectives)

P: Participate Actively (Be Engaged & Check Learning)

U: Use PLD Wisely (As Required by Lessons)

R: Respect Each Other/Opinions (One Voice / Listen)

After

R&R

R: Reflect and Consolidate your Learning

R: Remember to Complete tasks and Charge your PLD

B: Classroom Management and Routines

Examples

- Student to fully charge their PDL at home
- PLD to be placed under their table unless required by teachers
- Clear classroom instructions (eg Screen-Up / Down)
- Consequences for misuse of PLD

QUEENSTOWN
SECONDARY SCHOOL

C: Device Management Application (DMA)

Device Management Application

Information on Insurance, Warranty and Technical Support

Insurance, Warranty and Technical Support

Enhanced Device Bundle

- ✓ 3-year insurance + 3-year warranty
- ✓ Allows for 2 repairs or 1 replacement

Note:

Once insurance is claimed for a replacement device, the insurance coverage will cease and the replacement device will not be covered by insurance.

Insurance, Warranty and Technical Support

Insurance*

The device insurance coverage includes:
Damage to or loss of device from the following which are non-manufacturer defects or internal mechanical faults:

- a) Fire
- b) Lightning
- c) Power Surges
- d) Accidental e.g water spillage, drop etc
- e) Theft due to forcible entry
- f) Robbery

Warranty

This warranty warrants that the product will be free from manufacturing defects in materials and workmanship for the limited warranty period of 3 years.

**The insurance coverage is only applicable to situations of damages and loss where the student has taken precautions to safeguard the device.*

School Technical Support

School Helpdesk

Venue : Comp Lab 3 (Level 4)

Opening Hours : Monday to Friday 2pm to 4pm

* School can also provide the return/collection of your faulty devices to/from Lenovo on your behalf
